## Welcome to the Bahamas!

Get ready for an exciting day in Nassau, Bahamas! Some call Nassau "a taste of Europe with Caribbean flavor". From beautiful beaches to cricket games and Riviera-style casinos, Nassau offers so much.

For your excursions, you'll start your morning with a tour of the Ardastra Gardens & Zoo home to over 300 species. From there you'll head to the Atlantis resort for a day poolside and swimming with the dolphins.

## Welcome to St. Thomas!

Known as "America's Paradise", the U.S. Virgin Islands - and its capital St. Thomas - offers breathtaking beaches and access to countless sports.

For your day on St. Thomas your morning starts with a visit to St. Peter Great House - a historic plantation high in the mountains famed for its architecture. From there you have a free afternoon to explore.

### **Welcome to St. Maarten!**

The island with a "split personality", St. Maarten brings together rich cultural influences from France and the Netherlands on distinct sides of the island. Together this adds to a vibrant experience and amazing cuisine.

You have a free day on St. Maarten to explore the beautiful beaches, culture, and architecture. I recommend walking through the Dutch capital - Philipsburg for food and the sites.
